PROFESSIONAL PROFILE

Laravel-focused backend and full-stack software engineer with 10+ years of professional experience designing and delivering scalable web platforms, payment systems, inventory workflows, real-time applications, and third-party API integrations.

Experienced in distributed remote collaboration, technical ownership, mentoring, production incident handling, and delivery from requirements through deployment.

CORE COMPETENCIES

Backend	PHP, Laravel, CodeIgniter, CakePHP, Node.js, Express, REST APIs, WordPress	Frontend	JavaScript, Vue.js, jQuery, Livewire, HTML5, CSS3, Bootstrap
Data & Caching	MySQL, MariaDB, PostgreSQL, MongoDB, Redis, Memcached, Firebase	Integrations & Domains	Payment gateways, Wallet systems, Inventory & distribution, CRM workflows, MikroTik / ISP billing, SMS & push notifications, Third-party API design
DevOps & Tooling	Docker / docker-compose, Nginx, Apache, Linux (Ubuntu, CentOS), macOS, Jenkins, GitHub Actions CI/CD, Git, AI-assisted development		

PROFESSIONAL EXPERIENCE

- Software Engineer · Newroz Technologies Limited

Dhaka, Bangladesh · Laravel, PHP, MySQL, Redis, REST APIs, Vue.js

2021 – Present

 - Owned backend delivery for Kartat card-selling products, including inventory, gateway, reseller panels, FIB Bank of Iraq reseller flows, and activity-log management.
 - Contributed to FastPay wallet initiatives for Iraq across inventory, corporate, distribution, CRM, and operational logging modules.
 - Handled production-critical incidents and high-pressure releases across payment, card-selling, stock, and partner-integration workflows while protecting transaction and inventory integrity.
 - Designed and integrated third-party APIs for payments, stock, and partner systems using Laravel.
- Software Engineer · Jolzatra Limited

Dhaka, Bangladesh · Laravel, PHP, MySQL, Vue.js, REST APIs

2020 – 2021

 - Built and maintained Laravel backend services powering merchant operations and booking workflows.
 - Collaborated with product and management stakeholders on requirements, estimation, and delivery planning.
 - Improved scalability and maintainability of booking-related backend features.

SELECTED IMPACT

- 10+ years shipping production backend systems across fintech, booking, ISP, and enterprise domains
- Built the complete Kartat card-selling platform end-to-end (inventory, gateway, reseller, bank flows)
- Delivered FastPay wallet product modules for Iraq including inventory, corporate, distribution, CRM, and activity logging
- Experienced mentoring developers, estimating delivery, and owning features from requirements to production

EARLIER EXPERIENCE

Software Engineer · Dream71 Bangladesh Ltd.	2018 – 2020
Dhaka, Bangladesh · Laravel, PHP, MySQL, JavaScript, Node.js	
• Gathered requirements with clients and translated them into technical delivery plans. • Led feature development and coordinated with team members on estimation, cost, and scheduling. • Delivered backend systems for operational and domain-specific business applications.	
Web Developer · eSoft Arena Ltd.	2017 – 2018
Dhaka, Bangladesh · Laravel, CodeIgniter, CakePHP, WordPress, MySQL, MongoDB	
• Designed and coded applications in an agile environment with a focus on maintainable PHP backends. • Created and maintained technical documentation and acted as liaison between business and engineering.	
Web Developer · The Net Heads Ltd.	2016 – 2017
Dhaka, Bangladesh · PHP, MySQL, JavaScript, jQuery, HTML, CSS	
• Designed and coded applications using a test-oriented, iterative delivery approach. • Maintained project schedules and technical documentation.	

SELECTED PROJECTS

Durpalla Booking Platform Ecosystem	Ongoing case study
Building an end-to-end booking platform ecosystem that connects a Laravel/PHP API gateway with a Flutter customer application and the services required for complete booking journeys.	
Laravel, PHP, REST APIs, Flutter, Dart, MySQL	
Kartat Card-Selling Platform	Case study
End-to-end card-selling application covering inventory management, payment gateway operations, reseller panels, bank partnership flows (including FIB Bank of Iraq), and activity logging.	
Laravel, MySQL, REST APIs, Inventory systems	
FastPay Wallet (Iraq)	Case study
Wallet and operational panels for FastPay initiatives serving Iraq, including inventory, corporate, distribution, CRM, and activity-log management systems.	
Laravel, MySQL, API integrations, CRM	

EDUCATION

Bachelor of Arts
Kabi Nazrul Govt. College, Dhaka, Bangladesh
2008 – 2012
